

DRASTIC PROHIBITION LAW EFFECTIVE OCT. 28, UNLESS VETOED

After That Date it Will be Unlawful
to Sell or Manufacture
Liquor of Any Kind

**Liquids Containing Less
than One Half of One
Per Cent Can be
Manufactured**

(By United Press)

Chicago, Oct. 20.—The prohibition law, deemed one of the most sweeping acts passed by congress, was expected to be sent to the White House today by Attorney General Palmer, who expects to investigate its constitutionality. The plan is to have the bill remain at the White House until October 28, when it becomes effective, even without the president's signature. From reliable sources no hints of a veto have been made.

Under this act the morning of Oct. 28, at the latest, it would become illegal to manufacture or sell liquor containing more than one-half of one per cent of alcohol, or any patent medicine containing more than that amount of alcohol. Violators will be investigated by commissioners of internal revenue and prosecuted. The commissioners are authorized to swear out warrants and arrest the offenders.

Liquor manufactured before the bill goes into effect may remain in the United States bonded warehouses and alcohol may be reduced to bring it within the law or withdrawn to be denatured. Beer containing less than one-half of one per cent may be sold but not under the name of beer, ale or porter. Penalties under the dry law are varied, ranging from prison sentences to fines according to what section of the law is violated. When the 18th amendment of the constitution goes into effect in January many more provisions of the law become effective. They include: Regular physicians cannot prescribe liquor unless they are licensed. No more than one pint may be prescribed within ten days. The form for the prescription is to be supplied by the internal revenue commissioners with stubs like a check book, the book to be turned in after the blanks are used. Not more than one prescription may be filled and the druggist must keep record of the time, place, etc.

Advertising of liquor is made illegal. Giving of information where liquor can be obtained is law breaking. Vehicles carrying liquor may be seized.

Ban Might be Lifted

Washington, Oct. 20.—There is a slight chance that President Wilson will lift the wartime dry ban before constitutional prohibition becomes effective in January, it was learned from responsible sources.

Upon ratification of the German treaty President Wilson may proclaim peace, although the United States is at war technically with Austria. A declaration of peace would make possible the lifting of the ban to those favoring a "wet spot." The president would not be bound by a technical state of war with Austria or with any other technicality if the German treaty is accepted. However it was learned that Austria's state of war has been almost completely overlooked by government officials.

President Wilson is expected to ask the justice department's opinion on the subject before acting to declare peace.

Should the ban be lifted millions of gallons of whiskey in storehouses would be put on the market.

Austrian Congress Asks American Aid

(By United Press)

Vienna, Oct. 20.—The Strdat today passed a resolution asking the American congress to aid the city in its "desperate plight." The shortage of food and fuel may cause the death of thousands this winter.

**States Cannot
Seize and Sell Food
in Cold Storage**

(By United Press)

Washington, Oct. 20.—The supreme court today in effect held that states cannot seize and sell food in cold storage longer than the period provided by state law.

The decision settles the constitutionality of Smith's cold storage act of Ohio limited to six months. It was the first appeal of the packing interests against the new law passed in several states limiting cold storage to help reduce the cost of living. The case was brought by the Columbus Packing Company against the state. After the state supreme court upheld the law the United States supreme court refused to hear the case.

Viscount Astor Dies of Heart Disease

(By United Press)

London, Oct. 20.—The body of Viscount Astor who died of heart disease Saturday, was lying today at the home of his son Waldorff Astor in St. James Square.

Although the Viscount had been in ill health from an attack of influenza his death was unexpected, it was said. He walked about the grounds as usual Friday and he died in bed Saturday morning. The funeral will be held in London. The body will be cremated according to the viscount's wishes.

There will be a vacancy in the House of Commons owing to the elevation of Waldorff Astor now a member of the House of Commons to the peerage.

Donaldson Wins Second Honors

New York, Oct. 20.—Capt. J. O. Donaldson, piloting a single seated airplane, arrived at Roosevelt field, Mineola, at 10:03 a. m. today. Donaldson is the second to complete the endurance race from Mineola to San Francisco and return, Lieut. B. W. Maynard having arrived here Saturday afternoon.

Lawyer Working as Seaman so He Can Argue Shipmate's Case in Supreme Court

This photograph taken at Los Angeles, Cal., shows Silas Blake Axtell, chief counsel for the Seamen's Union at work on board a steamship West

SERGT. WILLIAM SANDLIN

Sergeant York's nearest rival as the greatest individual hero of the war lives in Lexington, Ky. He is Sergt. William Sandlin, twenty-eight years old, and his record is 24 dead Germans for one day's work. Last September 26, 1918, near Bois de Ferger, France, Sandlin, unaided and alone, killed the 24 Germans and captured six machine guns, escaping without a scratch. For this remarkable feat he was awarded the Congressional Medal of Honor, the Medaille Militaire of France and the French Croix de Guerre with palm.

Steel Strikers Have Increase of 50 Per Cent

**Claims Chairman Fitzpatrick in an
Appeal For Funds for the
Strikers**

(By United Press)

Chicago, Oct. 20.—The number of steel strikers has increased fifty per cent since the men walked out five weeks ago, John Fitzpatrick, strike leader, declared in an appeal for funds. He urged organized labor to come to the aid of the hungry wives and children of strikers.

One Poison Victim Returns Home

(By United Press)

Chicago, Oct. 20.—Edna Luikhart, the younger of the two little Detroit girls, who has overcome the effect of bichloride of mercury poisoning, administered by their insane mother, today prepared to return home. The father plans to leave this week with Edna, returning later for Shirley, who is past the danger mark, but will remain under the care of physicians for a while longer.

Congress Will Adjourn After Treaty Vote

Is Plan of Senate Leaders, Leaving
Domestic Legislation for Regu-
lar December Term

By RAYMOND CLAPPER
(United Press Staff Correspondent.)

Washington, Oct. 20.—Adjournment of congress will follow closely on the final treaty vote according to plans by senate leaders today. The hope of enacting the program of domestic legislation outlined by Wilson has been abandoned until the session in December.

House leaders and chairmen of the important senate committee will still urge the necessity of placing on report domestic legislation.

The railroad reorganization bill is to be reported to the senate this week and is expected to pass.

Labor legislation has also lost momentum. Many congressmen are outspokenly anxious to get back to their homes to see how the political land lies.

The struggle for ratification of the treaty was resumed today. Several important amendments will be voted on.

Crisis Today in Longshoremen's Strike

(By United Press)

New York, Oct. 20.—Announcing determination of shipping interests to operate steamship lines today whether union longshoremen return to work or not the arrival of five hundred men of the 12th Infantry to aid in moving congested transport cargoes indicated a crisis in the strike.

Soldiers Arrive

New York, Oct. 20.—Five hundred soldiers arrived here today and will be employed in unloading vessels of the United States shipping board tied up in the harbor by the strike of longshoremen.

The conciliation commission appointed by Secretary of Labor Wilson held another meeting today in an attempt to end the strike. The mayor said he hoped to get the longshoremen and the steamship officials together in a conference.

President Better After Good Night

**Digestive Trouble Almost Completely
Subsided Says Doctors**

(By United Press)

Washington, Oct. 20.—The president's digestive disturbance has subsided almost completely, according to a statement issued by his physicians at 11:25 a. m. today.

"After a fairly good night he is comfortable this morning," the bulletin continued.

The statement was signed by Drs. Grayson, Ruffin and Stitt.

Passed Comfortable Night

Washington, Oct. 20.—President Wilson passed a comfortable night it was announced at the White House today. The attack of indigestion from which he suffered yesterday caused no further trouble.

President Will Not Permit Industrial Conference to Fail

(By United Press)

Washington, Oct. 20.—President Wilson will not permit the national industrial conference to break up in disagreement.

This was learned on high authority at the White House today. If any of the delegates quit the conference the president will name substitutes or cause them to be named it was made clear. Even should an entire group walk out the administration would make an effort to have it replaced. The industrial conference is here to see this thing through. So much is at stake that the government cannot afford to let it go by.

FATHER RICHARD HAWE

From New York recently sailed Father Richard Hawe, scoutmaster of Troop No. 10, Boy Scouts of America, in St. Columbkille church, Dubuque, Iowa. Father Hawe, an effective worker among Catholic Scouts, has for the main part of his mission abroad the study of scouting in England and Ireland.

Fall of Petrograd Reported Near

**Bolsheviks Will Make a Desperate
Defense of the Russian
Capital**

(By United Press)

London, Oct. 20.—The various anti-bolshevik continued their crushing pressure upon Trotsky's army and on the front of the rapidly narrowing territory dominion of the latter, according to advices received here today.

While the fall of Petrograd, unofficially reported last week, had not been officially confirmed, the city was said to be completely isolated. Yudenitch's forces were on the outskirts, according to Helsingfors dispatches. A new agency dispatch from Helsingfors today said Yudenitch by a rapid stroke east at Gatchina yesterday succeeded in blowing up the railway bridge of the Rosna cutting all communications between Petrograd and Moscow. A Copenhagen dispatch stated it was officially announced that Yudenitch had taken Ligo nine miles from Petrograd.

According to the Copenhagen Tidende, a dispatch from Reval declared the Bolshevik prepared for a desperate defense of Petrograd and stated the city had been divided into ten defensive sections, and that all of the city had been barricaded with 250 picked soldiers at each barricade.

Army Fliers Killed in Transcontinental Race When Their Plane Crashed in Utah

Left to right, Lieutenant Stanley C. Miller and Lieutenant F. Kerby

The eighth and ninth names were added to the list of aviators killed in the army's transcontinental race when the plane of Lieut. French Kirby and Lieut. Stanley C. Miller crashed near Castle Rock, Utah, Island, for the Pacific coast.

COLLECTIVE BARGAIN- ING VITAL QUESTION IN INDUSTRIAL CONGRESS

Public Group and Labor Group Favor
the Principle---Employers
Not Decided

**Attorney Gen. Palmer
Threatens to Prosecute
Beet Sugar Refiners**

(By United Press)

Washington, Oct. 20.—Attorney General Palmer today threatened prosecution against beet sugar refiners who ask higher prices than those set by the sugar equalization board.

MYSTERIOUS DEATH OF NEW YORK BOY

**Body Was Found on His Power Boat,
Clad in Women's Clothes**

(By United Press)

New York, Oct. 20.—The police maintain that John Lempke, age 21, committed suicide but his relatives are equally certain he was murdered. The boy's body, clad in women's clothing, a gingham dress, corsets, and long silk stockings was found last night on the deck of his power boat near his home. His hands were tied behind his back with a rope and his legs were bound, an old cloth covered his head and tied about the neck with a piece of rope. A bottle of poison was found on the boat but there were no indications that he had swallowed any of it. A preliminary examination showed that the boy had been strangled.

Baker Refuses to Withdraw Troops

(By United Press)

Washington, Oct. 20.—Secretary of War Baker refused today a request of Mayor Hylan, of New York, to withdraw troops from the water front sent to replace striking longshoremen so that army transports may be unloaded. Troops will wear their regular uniforms but covered by long overalls.

LABOR WEEDS OUT REDS

**Workers' "Secret Service" Formed
to Oust Undesirable Aliens**

Gary, Ind., Oct. 17.—With the receipt at military headquarters today of warrants for seven alleged "reds" in the custody of army authorities, it became known that a "secret service" has been formed within the ranks of organized labor to seek out any alien agitators.

**If the Principle is Rejected
by Employers the
Conference Will Break
up Without Action**

RALPH COUCH,

(Written for the United Press)
Washington, Oct. 20.—Employers in the national industrial conference were still in caucus on the question of collective bargaining shortly before noon today.

Secretary Lane therefore adjourned the morning meeting of the conference which assembled at 11 a. m. since only the public and labor groups were present. The session lasted only five minutes. The conference was to convene at 2:30 when a vote was to be taken on collective bargaining.

Employers have been in caucus almost continually since Friday. Public and labor groups are ready to vote in favor of a collective bargaining resolution. Members say a negative vote by employers group will defeat it. Labor members say they will quit if this occurs. Collective bargaining must be conceded if the right of organized labor is to go on. Members of the public group fear a break and are making an unusual effort to hold the conference in session.

The employers group delayed the opening of the morning session one hour when it met to discuss the collective bargaining resolution. During this delay Judge Gary and Chairman Lane and Secretary Morrison of the American Federation of Labor, held a long conference in a hallway. Fearing a break up by disagreement, Delegate John Spargo and other members of the public group planned to try to keep the conference in session by motion to lay on the table all matters before the conference. They plan to introduce this motion as soon as the vote is taken on collective bargaining. Spargo said this would give the conference a fresh start.

Wholesale Grocers At- tack Packers

Chicago, Oct. 20.—The five big packers were attacked today by the American wholesale grocers. They are taking business from them they maintain.

Charges will be heard by representatives of the interstate commission. Three hundred and seventeen railroads are helping the packers by discrediting in their favor by hindering shipment.

The principal charge is that packers are permitted to ship non-perishable groceries in refrigerator cars and getting passenger service while grocers get the ordinary flat car service. The packers are represented by seven lawyers.

Investigate Trade Commission Employees

Washington, Oct. 20.—Investigation of charges that employees of the Federal Trade Commission are engaged in "socialistic propaganda" is called for in a resolution introduced by Senator Watson of Indiana, today.

Watson accompanied his resolution with the statement that he is not asking this investigation in an effort to aid the "big five" packers who have been under fire from the Federal Trade Commission. He said he was seeking to learn through the statement that members of the commission were engaged in socialistic activity. In a speech accompanying his resolution Watson declared "he is astounded at the number of adherents to socialism holding government offices."

Homer Culver, the electrician of
Walker, says the Walker Pilot, is
looking for a Lugar automatic to
keep the wild deer away from his
car. Tuesday morning while driv-
ing to Akeley, eight deer jumped
over the car, just in front of the
windshield.
Old Brainerd people coming to
town after years of absence say
Brainerd never looked better and
busier than now and that it has bet-
ter prospects and more foundation
than any town of its size. And the
population, by the way, must be run-
ning close to 12,000.
The Mahlum block main floor is
being rapidly remodelled by carpen-
ters to suit the convenience of
the new tenant, the furniture com-
pany of Fitzsimmons & Wagner. One
partition was removed, one front en-
trance taken out and 6,000 feet of
hardwood flooring is being laid.
The Moose lodge of Brainerd gave
a fine dance at Gardner auditorium
on Friday evening. The attendance
was large. Music was furnished by
Louis Johnson's Brainerd orchestra
of six pieces each number being en-
cored. The committee in whose
hands were the dance arrangements
included Art Gumaer, Ed Bacon, Wm.
Baaken and Ed Hall.
The entente long existing between
Little Falls and St. Cloud appears to
be in danger of breaking because it
is reported St. Cloud has eyes on re-
moving the Little Falls orphanage to
St. Cloud. A Little Falls delega-
tion went to St. Cloud to discuss it
with Bishop Busch. A large peti-
tion was presented protesting
against the removal.
The New Park theatre advertised
in a novel way "The Miracle Man."
Red tags were attached to automobile
steering wheels and door handles cit-
ing the driver to appear for the
show. At first reading of the type
it looked as though the car owner
had violated a traffic rule and many
cars were parked wrong at that, and
that he was summoned to court.

STOMACH UPSET?

Get at the Real Cause—Take
Dr. Edwards' Olive Tablets

That's what thousands of stomach
sufferers are doing now. Instead
of taking tonics, or trying to patch up a
poor digestion, they are attacking the
real cause of the ailment—clogged
liver and disordered bowels.

Dr. Edwards' Olive Tablets arouse
the liver in a soothing, healing way.
When the liver and bowels are per-
forming their natural functions, away
goes indigestion and stomach troubles.

Have you a bad taste, coated
tongue, poor appetite, a lazy, don't-
care feeling, no ambition or energy,
trouble with undigested foods? Take
Olive Tablets, the substitute for calomel.

Dr. Edwards' Olive Tablets are a
purely vegetable compound mixed with
olive oil. You will know them by their
olive color. They do the work without
gripping, cramps or pain.

Take one or two at bedtime for quick
relief. Eat what you like. 10c and 25c.

DISPATCH WANT ADS PAY

KREIDLER TO SING IN CITY

Auspices of the Brainerd Musical
Club on Sunday Afternoon, Oct.
26, at Park Theatre

PRESS COMMENTS ARE GIVEN

Philadelphia Praised His Ability as
an Interpreter of Sacred Music
at Bach Festival

Louis Kreidler, the baritone who
will open the concert season of the
Brainerd Musical club, was a mem-
ber of the Metropolitan Opera com-
pany of New York, and is now with
the Chicago Opera company.

Below are some of the comments
of musical critics of Philadelphia,
Duluth and Decatur, Ill., as given by
the press of those cities.

Mr. Kreidler will appear at the
Park opera house next Sunday af-
ternoon, Oct. 26th, at three o'clock.
This singer's press notices emphasize
his ability as an interpreter of sacred
music.

Philadelphia Public Ledger—
Again and again at both sessions
Louis Kreidler gave the words of the
Saviour the dignity and compelling
pathos of the 'Man of Sorrows.' Es-
pecially in the contemplative vein
of quiet and restrained rejoinder, the
tone quality was delicious. Mr.
Kreidler is one of the best coadjutors
the Bach festivals have had.

Decatur Review—The big "All
American" baritone leaped into im-
mediate favor with the audience at
the outset, when by request he op-
ened the program with the prologue
from "Pagliacci," singing the num-
ber as a substitution for the two
Mendelssohn arias. The prologue is
one of the feature numbers through
which this singer has built a lasting
name for himself, and it made an ex-
cellent introduction. The singer is
big enough to mold his songs to his
own and his hearer's liking, and his
dramatic treatment is inspiring.

Duluth News Tribune—Louis
Kreidler, the popular American bar-
itone, was the last soloist of the
evening, singing the "Eri Tu" from
Verdi's "Masked Ball." His voice
was of splendid volume, and his tone
quality superb. He was rewarded
by prolonged applause and was ob-
liged to give an encore, which proved
to be one of the gems of the eve-
ning.

RED CROSS SPENT \$273,000,000 IN WAR---DAVISON

Organization Grows From 562 Chap-
ters to 3,724—21,000,000
Now Members

Washington, Oct. 18—During the
war the American Red Cross receiv-
ed \$400,000,000 in contributions and
spent \$273,000,000 in relief work,
it was stated today in the first instal-
ment of a report to the American
war board.

Henry P. Davison, chairman of the
war council of the Red Cross, made
the report. It showed contributions
of \$263,000,000 direct to the nation-
al headquarters and of \$137,000,000
to chapters. Expenditures were di-
vided as follows:

France, \$82,000,000; elsewhere,
overseas, \$72,000,000; in the United
States, \$119,000,000. There was on
hand Feb. 28 a balance of \$127,000,-
000 in cash and supplies.

Tremendous growth of the organ-
ization, both as to members and con-
tributions, was shown. On May 1,
1917, there were 562 chapters, with
425,194 adult members. On Feb. 28,
1919, there were 3,724 chapters with
17,156 branches, with 16,000,000
adults and 11,000,000 children mem-
bers. There are 74 chapters in in-
sular and foreign places.

Of the \$400,000,000 raised during
the war, \$42,000,000 came from
membership dues and \$283,500,000
from war drives. The remainder was
from scattered sources. The facts
in connection with the work con-
tained in the report are: Relief ar-
ticles produced by volunteer work-
ers, 371,577,000; families of soldiers
500,000; refreshments served by can-
teen workers for the soldiers, 40,-
000,000; nurses enrolled with the
army, navy or Red Cross, 23,822.

WOMAN AGED 101 DIES

Mrs. U. P. Stein in Good Health up
to Year Ago

Mondovi, Wis., Oct. 17—Mrs. U.
P. Stein died at the home of her
daughter, Mrs. George Gaab, at the
age of 101 years, 5 months and 16
days.

Mrs. Stein was one of the first set-
tlers at Buffalo county. She was hale
and hearty until just after her 100th
anniversary.

She came from Germany at the
age of 24 years.

TEACHERS ARE WARNED OF BOGUS INSPECTORS

Crow Wing county teachers are be-
ing warned, by state and county
school departments to be on the alert
for agents who travel thruout the
state, often posing as inspectors for
the state.

The warning sent by the state de-
partment calls attention to an ad-
vertisement which appeared in a
Minneapolis newspaper, asking for a
young man with a Ford to canvass
the country schools of the state. It
is stated that several years ago a
sale of books was carried out in
counties thruout the state by per-
sons posing as inspectors for the
state.

Teachers are requested to report
any such misrepresentation if dis-
covered. The agents will be ar-
rested by the school authorities.

Trying to Confirm Report

Washington, Oct. 20—The state
department today was making efforts
to obtain from agencies in Russia in-
formation or denial of the report
about the cities of Petrograd and
Kronstadt.

W. C. T. U. Supper

"Meet you after the movies"

—Ches. Field

NOTHING like following up a good show
with a good smoke—Chesterfield.

No ordinary cigarette, this. Mellow as an
old friend, but rich with flavor—the kind
that goes right to the spot.

Our own buyers in the Orient select for us
the choicest Turkish leaf. We blend with
this several varieties of specially selected
Domestic tobacco. This blending—by a
secret method—brings out new qualities of
flavor that other and less expert methods
fail to find.

That's what we mean by "satisfy"—an
entirely new kind of smoking enjoyment
that you get in Chesterfields only—nowhere
else; for the blend is a closely guarded
secret. It can't be copied.

MAKE THRIFT GENERAL

The spectacle of the American people making thrift a national habit while army contingents and government departments, charged with gross waste of material and supplies, continue their practice of squandering money, is not a good example for the nation at large.

Any nation preaching thrift should practice it too.

HUMAN CLASSIFICATIONS

Irvin S. Cobb in the Saturday Evening Post—It seems to me one of the chief peculiarities of human nature is that it divides all civilized mankind into two special groups—those who think they could run any newspaper better than the man who is trying to run it, and those who think they could run any hotel better than the man who is hanging on as manager or proprietor of it.

There are subdivisional classifications of course—for example, women who think they can tell any other woman how to bring up her children without spoiling them to death, and women who are absolutely sure no woman on earth can tell them anything about the right way to bring up their own children; which

*two groupings include practically all women.

SEC. C. ART. 23

Section (c), Article 23 of the covenant of the League of Nations carries this illuminating detail as some of the work entrusted the members of League of Nations:

(c) will intrust the league with the general supervision over the execution of agreements with regard to the traffic in women and children and the traffic in opium and other dangerous drugs.

Making the United States of America a party to carrying out agreements in traffic in women and children, and coupling that debasing traffic with an equally soulless barter in opium.

It would be most edifying to ascertain what country handed in that article and how the vote stood for its adoption.

Nobody had the hardihood to write slavery into the league covenant, but the league had to "hand" it to defenseless women and children.

How America can supervise something which is unlawful in the first place will be a nut for constitutional lawyers to crack.

NORTHWEST NEWS

Theodore Roosevelt Memorial
 St. Paul, Oct. 20—The northwest states will do their share in the campaign for the \$100,000,000 to erect a permanent memorial to the late Theodore Roosevelt, according to Irving A. Caswell, chairman of the Minnesota campaign committee. The national campaign funds to memorialize the late ex-president, started today, will end a week from today—the birthday anniversary of Roosevelt.

Plumb Plan League
 St. Paul, Oct. 20—Congressman C. C. Dill of Spokane is expected to tell railroad men and the public all about the "Plumb plan" at a mass meeting tonight. Railroad men of the Twin Cities have formed a "Plumb plan" league.

Shop Wage Changes
 St. Paul, Oct. 20—The federal railroad administration put into op-

Fifth Specialist Called in to Attend President

Although Admiral Grayson, President Wilson's physician, has made no announcement, it is understood that Dr. H. A. Fowler of Washington was called to examine Mr. Wilson. This makes the fifth specialist in attendance on the president. Dr. Fowler is a specialist in treatment of affections of the glands.

eration today four important changes governing employment in railway shops.

A wage increase of four cents an hour retroactive to May 1, was ordered.

The second important change was the establishment of an eight hour day. The personal record system, requiring a man to produce his record of employment for the past two years, before he could be employed, was abolished.

Hereafter, according to the federal edict, the age limit of 45 is also abolished. Previously no man over the age of 45 could be employed in shops.

North Dakota Drive

Dickinson, N. D., Oct. 20—Altho allotted but \$37,500 of the \$5,000,000 Roosevelt memorial fund to be raised throughout the nation this week, terminating on the birthday of the great American, North Dakota aims to raise \$60,000 and with the surplus erect a memorial of some sort to the late Roosevelt at Medora, which was once his ranch home and to which he refers "with affection and respect" in his autobiography. Sylvanus Ferris, who was a partner with Roosevelt on the ranch, will head the state drive committee.

First New York-Duluth Ship

(By United Press)
 Dublin (By Mail)—An event of American commercial importance was the arrival in the port of Dublin this week of the American freight steamer Lake Gretna. The Lake Gretna is the first vessel of a proposed regular direct service between New York and the Irish capital, and Irish producers and exporters are co-operating with the industrial and trade organizations to provide return cargoes.

The vessel is proceeding to Belfast after discharging her Dublin cargo. The Lake Gretna's first direct New York-Dublin voyage was a prosperous one, the discharge of her cargo, which included shoes, fruits, wines and automobiles, was expeditious and everything promises well for the success of the direct service.

Catarrhal Deafness Cannot be Cured.
 by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free. All druggists. 75c. F. J. Cheney & Co., Toledo, O.

OLD PAPERS—5c BUNDLE

The Fight to Death

By DON E. CHAMBERLAIN

(United Press Correspondent)
 New York, Oct. 20—"We had orders to fight to the death. We merely followed orders."

This was the terse explanation here today by Lieut. Gen. Baron Jacques, commander of the Third Belgian Army Division, and who fought at Lege, Antwerp, on the famous victory of a single Belgian brigade of infantry which stopped the Germans at Dixmude in October, 1914.

"From October 19 to 26 we fought and held them without budging an inch," Jacques told the United Press. "The Germans were advancing. The fighting was very, very hot. It was an inferno all the time. I was wounded twice. More bodies were strewn over the ground than there were effective. The Germans were absolutely mad, charging, charging, morning, noon and night. We had to keep our finger on the trigger all the time. We couldn't get forward even to relieve our outposts, all of which but one held. This one held its men wiped out. We couldn't even succor our wounded."

"But in those seven days we held every inch of ground and stopped the German onrush. Finally after the battle we retired to the south side of the river. The Germans didn't enter Dixmude until November."

"We simply had been ordered to fight to the death. We merely followed orders."

"As an example of the terrific strain we were under: On the night of the 25th, a German battalion forced its way through Dixmude to the south bank of the river in our rear. I blew out my candle light. Some officers were killed because their lights gave the Germans a target to shoot at. Throughout the night we heard the Germans in our rear singing, shooting and killing. In front of us they were constantly charging our lines."

"But our morale held. The Germans finally stopped and the battle was ours. The German Battalion which had forced its way through our lines never returned. We killed and captured the entire battalion."

ZEPPELIN BUILT TO RAID GOTHAM MAY CROSS SEA

New York, Oct. 17—A super-Zeppelin, which the Germans planned to load with bombs and raid New York, soon will start for America on a peaceful mission under command of American officers, if the allied governments will permit.

The huge ship, 600 feet long, is in a shed at Spandau, Germany, and is the only one built for war purposes that was not destroyed by the Germans, according to Emil U. Simon, a radio engineer, who arrived today on the steamship Adriatic. He said the Zeppelin was designed to carry more than three tons of explosives for a raid on Gotham.

DRINK HOT WATER IF YOU DESIRE A ROSY COMPLEXION

Says we can't help but look better and feel better after an inside bath.

To look one's best and feel one's best is to enjoy an inside bath each morning to flush from the system the previous day's waste, sour fermentations and poisonous toxins before it is absorbed into the blood. Just as coal, when it burns, leaves behind a certain amount of combustible material in the form of ashes, so the food and drink taken each day leave in the alimentary organs a certain amount of indigestible material, which if not eliminated, form toxins and poisons which are then sucked into the blood through the very ducts which are intended to suck in only nourishment to sustain the body.

If you want to see the glow of healthy bloom in your cheeks, to see your skin get clearer and clearer, you are told to drink every morning upon arising, a glass of hot water with a teaspoonful of limestone phosphate in it, which is a harmless means of washing the waste material and toxins from the stomach, liver, kidneys and bowels, thus cleansing, sweetening and purifying the entire alimentary tract, before putting more food into the stomach.

Men and women with sallow skins, liver spots, pimples or pallid complexion, also those who wake up with a coated tongue, bad taste, nasty breath, others who are bothered with headaches, bilious spells, acid stomach or constipation should begin this phosphate hot water drinking and are assured of very pronounced results in one or two weeks.

A quarter pound of limestone phosphate costs very little at the drug store but is sufficient to demonstrate that just as soap and hot water cleanses purges and freshens the skin on the outside, so hot water and limestone phosphate act on the inside organs. We must always consider that internal sanitation is vastly more important than outside cleanliness, because the skin pores do not absorb impurities into the blood, while the lower pores do.

AMUSEMENTS

At the New Park Theatre

Published originally as a novel in Munsey's magazine, written by Frank L. Packard and later dramatized by George M. Cohan and presented with phenomenal success on Broadway, the Paramount-Artcraft picture, "The Miracle Man" comes to the New Park theatre on Wednesday, Thursday and Friday.

As a motion picture this absorbing story has been hailed by the critics as one of the finest productions ever seen on the screen. With scenes laid in the haunts of criminals in New York's Chinatown, in a little village on the side of a giant mountain and on the shore of a roaring ocean, the opportunity for wonderful photographic effects has been realized to the limit.

But the chief interest is in the striking story, which centers about the venerable figure of an old patriarch, who is credited with the power to heal the sick and make crippled limbs whole again. To him come Tom Burke and his band of crooks from New York's Chinatown with the idea of cashing in on his powers. But it doesn't work out as they calculated, for hidden away in each of them is a heaven of good, which slowly comes to the surface under the influence of their wholesome environment. In a most marvelous way the criminals are reclaimed from the paths of crime.

A cast of unusual ability enacts the important roles in the picture, headed by Thomas Meighan, a well known leading man, and including Elinor Fair, Betty Compson, Joseph J. Dowling, Lon Chaney, W. Lawson Bugt, J. M. Dumont, Lucille Hutton and F. A. Turner.

A Message for the Middle-Aged

Poley Kidney Pills give quick relief from kidney or bladder troubles that have not reached a chronic or bad stage. They stop bladder irregularities, strengthen the kidneys and tone up the liver. Don't suffer when relief can be had. Get rid of backache, lameness, rheumatic pains, and stiff joints. H. P. Dunn. mwf

The Changing World

NAPOLEON is quoted as having said, "Right is on the side of the heaviest artillery." In other words that might makes right.

This cynical remark was characteristic of the age in which he lived, and expressed the thought which dominated the world for many years after his death.

But a change has come over the world which has turned the whole thought of mankind into more wholesome, constructive channels. Where formerly he who had the power exploited his fellows, today the dominant idea is service and helpfulness.

In business particularly, is this idea apparent.

Today only those business institutions which render to the public a definite, specific service can hope to survive the changed ideals of the world.

The Standard Oil Company (Indiana) is bending every effort to conduct its affairs in such manner as to conform to these modern ideals.

It is the ambition of the Company to broaden the scope and intensify the service it renders the public so as to make every man who buys even a gallon of gasoline feel that he is receiving the greatest possible value for the money he spends.

It is the Company's steadfast purpose to make every product it manufactures of the highest quality possible, thereby keeping its activities in step with the changing world.

100 PER CENT RECORD TO DATE

"No Accident" Fortnightly Drive Starts Out Well on N. P. and M. & I. Railways

SHOPMEN AND RAILWAY MEN

Striving to Maintain the Mark Untouched by Accidents to Passengers or Crews

The Northern Pacific and Minnesota & International railways scored 100 per cent perfect in the "No Accident" campaign inaugurated Oct. 18, the record being clear Monday morning at Brainerd shops and terminal.

Shopmen and railway workers are enthusiastically aligned to maintain the record and emerge from the fortnightly drive with the 100 per cent flag still flying.

In a previous drive the Minnesota & International Railway scored 100 per cent perfect with no accident or fatality to passengers or crews.

SWANS ON GULL LAKE

Flock of Fifteen Feeds in Vicinity of I. U. White's Summer Home

An unusual sight in this district was a flock of fifteen large white swans on Gull lake near the summer cottage of I. U. White. The largest number ever seen before, about three years ago, was three. The flock spent Sunday feeding at the lake and hunters took pains to see that no one molested them. The birds were on their way south.

The Salvation Army

Rev. Envoy Gronlund, Salvation Army war worker, will show for the first time in Brainerd, government pictures of the great war, and give an interesting address or lecture this evening at the Salvation Army on West Front street.

Great crowds attended the Sunday services. Tonight is the last evening. Silver collection will be taken at the door.

LLOYD GEORGE BLAMES U. S.

Holding up Peace With Turkey, Prime Minister Thinks

London, Oct. 18.—In his speech at Sheffield last night, Prime Minister Lloyd George attributed the delay in the conclusion of the peace treaty with Turkey to the uncertainty as to the attitude of the United States.

It was impossible he said, to settle the destiny of Turkey before knowing whether the United States was going to share the burdens of civilization outside of the United States.

The Locomotive Electric Washer embodies many valuable features not found in any other washer. It is built to give satisfaction, and the materials used in its construction are the best that money can buy.

The movement of the boiler causes a violent agitation of the water in the form of a figure 8. In this way, forcing the water through the fabric cleansing thoroughly and quickly.

The movement of the boiler and the heat under it, form a forceful vacuum and steam action, hastening the cleansing process, sterilizing the clothes at the same time.

The Locomotive Washer is simple in construction, easy to operate, and there is nothing to get out of order. Built from a woman's point of view.

You may look at other washers, but you will BUY A LOCOMOTIVE WASHER.

Mrs. A. M. McQuaig of New York City will be here soon to demonstrate the machine.

INSPECT IRON PROPERTIES

Carl Zapffe One of Party Which Toured Cuyuna Range in a Special Train Examining

THE N. P. RAILWAY HOLDINGS

Northern Pacific Officials Accompanied by Louis W. Hill of the Great Northern

Carl Zapffe has just returned from a trip of inspection of the iron properties and mines owned by the Northern Pacific railway company.

The party traveled in a special train and consisted of Charles Donnelly, executive vice-president, and the next president of the railway company; C. L. Nichols, general superintendent; John Driscoll, assistant to the division superintendent; George F. Baker, Jr., of J. P. Morgan & Co.; L. W. Hill, chairman of the board of the Great Northern Railway company; and L. D. Newman, manager of the Great Northern iron ore properties. The train passed through Brainerd without stopping.

IRISH "PRESIDENT" NOW CHIPPEWA BRAVE

Initiation Into the Tribe Took Place at Reserve Before 5000 People

MEMORIAL SERMON DELIVERED

By Rev. P. J. O'Mahoney of Spooner, Wis., Brother of Rev. J. J. O'Mahoney of Brainerd

"President" Eamon de Valera of the Irish "republic" is now a chippewa brave named "Dressing Feather."

That makes him now a native American, with a Spanish father and an Irish mother, president of the Irish republic, living under territory claimed by Great Britain and an adopted son of the Indians.

His initiation into the tribe took place at Reserve before 5,000 people, every community for 50 miles from that place being represented.

The initiation was accompanied by an elaborate Indian ceremonial, including dances.

The "president" arrived from Milwaukee at 10:57. At Reserve he assisted at a requiem mass for the Indian soldiers who had died in the war.

His speech followed dinner at 2 o'clock and one part was devoted to the white people and the other to the Indians. To the white people he said he had come to America in the belief that this country would recognize the Irish republic.

During the course of his address he said that commerce between this country and Ireland could be strengthened by such recognition as now all Irish cargoes must be shipped via London in British bottoms.

The sermon at the memorial mass was delivered by Rev. P. J. O'Mahoney of Spooner, Wis. He is a brother of Rev. J. J. O'Mahoney of Brainerd.

TO REPRESENT CUYUNA RANGE

Governor J. A. A. Burnquist has appointed Carl Zapffe one of a committee of five from Minnesota to represent the state at the meeting of the American Mining Congress which convenes in St. Louis the last week of November. Mr. Zapffe is the only appointment from the Cuyuna district, the others being from Duluth and the Mesabe district.

State of Minnesota, County of Crow Wing, in Probate Court:

In the matter of the guardianship and estate of George Edward Sargent, The State of Minnesota to Elma D. Sargent, and all persons interested in the sale of certain lands belonging to said Minor. The petition of Elma D. Sargent, guardian, as representative of the above named Minor, being duly filed in this court, representing that it is necessary and for the best interest of said estate and of all interested therein that certain lands of said Minor described therein be sold and praying that a license be to her granted to sell the same.

Now, therefore, you and each of you, are hereby cited and required to show cause, if any you have, before this court, at the probate court rooms in the court house in the City of Brainerd, County of Crow Wing, State of Minnesota, on the 28th day of October, A. D. 1919, at ten o'clock A. M., why the prayer of said petition should not be granted.

Witness, the Judge of said court, and the seal of said court, this 3rd day of October, A. D. 1919.

J. T. SANBORN, Judge of Probate Court.

(Court Seal)
M. E. RYAN, Attorney for Petitioner.

ARMY FOOD SUPPLIES HEADED FOR BRAINERD

Ordered as Parcel Post, Supplies and Postage Paid for in Advance August 20 and 21

LOCAL PEOPLE ORDERED \$600

First Supposed to Come by Parcel Post, Now Reported Supplies May Be Shipped by Freight

The plan of the government selling army food supplies to the people at first hand through postoffices is a good one with only one drawback and that is—delivery.

Brainerd people bought some \$600 worth of supplies August 20 and 21, but to date, two months have passed into oblivion and not one pound of stuff has showed up.

Uncle Sam as a grocer certainly had a lot of goods to sell and did sell millions of pounds in August, but Brainerd must have been passed up as a delivery point. Duluth and Superior received their supplies, but Brainerd is still minus any pork, beans or anything else ordered.

The last heard from Washington was to the effect that the goods ordered by parcel post had now been shipped by freight. Somebody must have specified "slow freight."

In the meantime army bacon sold at the postoffice sale August 20 for 36c a pound in 12 lb. cans plus the cost of parcel postage, has shipped down to 27c and on October 17 to 21c a pound at a local store.

It seems most aggravating to have a government plan of real merit go glimmering just because the transportation or delivery end gives way.

BRAINERD'S OLDEST STORIES OF TODAY

The Anderson's were in evidence when it came to automobile accidents last Friday. Axel Anderson turned the First National bank corner and lost a wheel, negotiating some distance on the axle scraping the ground before he halted square in the intersection. Arnie Anderson's car stood near the curb and another party swerved in between Axel's and Arnie's cars, struck Arnie's car and jammed it against the curb.

Reports from the duck shooting front occupied by Thomas Skiles, Joe Goederz and Joe Bolduc indicate great activity. The last official communiqué sent to Clyde E. Parker who went to town to get more grub for the party, indicates that Saturday night Private Skiles went out on the waterfront sector and at great risk of falling into the lake, skillfully anchored the decoys in proper position. Next morning at sunrise Joe Bolduc was scouting around and pumped three pot shots into the wooden decoys, crippling them and greatly damaging Skiles' formation. Bolduc paddled out with visions of dead ducks and was deeply chagrined when he saw what he had done. He spent the rest of the day making repairs to the ducks. To date 24 real ducks have been slaughtered. It has been noted, however, that if the expedition was to subsist on what it shot, the party would have died of starvation a long time ago. In the meantime they are anxiously awaiting the return of Mr. Parker with more grub. Skiles gained the altitude record by shooting at a flock two miles away.

British and American Ships in Collision

(By United Press)

New York, Oct. 20.—The American tanker, Geo. Jones and the British cargo ship Chicago City were in a collision in the lower bay today. There was a hole torn in the British ship and she ran to the beach in a sinking condition. The tanker was damaged but continued out to sea.

Lava Threatens Government Road

(By United Press)

Honolulu, Oct. 20.—The important government road is threatened by lava falling from the volcano Mauna-aloa. The stream is now but eight miles from the road and is moving nearer. The lava is pouring from the mouth and several openings.

FOUND GUILTY OF AIDING EVASION

Fred Giesel of Fort Atkinson, Wis., Found Guilty in Superior of Aiding Son Escape Draft

JURY OUT ONLY 15 MINUTES

Sheriff Claus A. Theorin Testified Having Arrested Young Man For Desertion

Fred Giesel of Fort Atkinson, Wis., was found guilty by a federal court jury in Superior on a charge of aiding and abetting his son, Edward O. Giesel, to evade the United States draft. He was found guilty on one count. Another count to the indictment in which he is charged with conspiracy, has not come up for trial.

Mr. Giesel did not take the witness stand. The jury was out only 15 minutes. A witness for the government was Sheriff Claus A. Theorin who testified arresting the young man who also went under the name of Nelson, on the charge of desertion.

Judge A. L. Seaborn who heard the case, will probably pronounce sentence before Tuesday. Testimony given by Fred Giesel, Jr., tended to absolve the father. The son attempted to assume all the blame.

FIRST PLANE THAT FLEW TO BRAINERD

Aviators in J. P. Ernster Machine Crashed to Ground at Lonsdale—One Killed

FIRST AVIATOR'S FUNERAL

Lieut. Walter Bullock, Minneapolis Flier, Arranging to Have Every Plane in Cities Fly

Brainerd is interested in the air catastrophe in Lonsdale which occurred when the J. P. Ernster machine, the first plane to make a flight from Brainerd to Minneapolis, crashed to the ground and one aviator was killed.

The St. Paul Dispatch states:

The first aviator's funeral to be held in the Twin Cities will be conducted for Charles V. Mansfield of Minneapolis, who was killed Oct. 16 at Lonsdale, forty-five miles south of St. Paul. The plane in which he was riding was crashed to the ground when the pilot, Eugene Burke, also of Minneapolis, zoomed into a tree to avoid a crowd on the landing field.

Lieut. Walter Bullock, Minneapolis flier, is arranging to have every plane in both St. Paul and Minneapolis fly over the funeral of the dead mechanic and drop flowers.

If all the ships are flown there will be at least fifteen in the formation that will do final honors for their dead comrade.

It has become the practice for fliers to loop three times over the grave during the funeral ceremony and then drop their flowers and fly away. This, it is expected, will be done in this case.

Young Mansfield was known to Twin City aviators as an expert engine man and for this reason he was made an instructor at the Aviation Mechanics Training school at the Overland building during the war.

The plane he and Burke were flying is owned by J. P. Ernster, Minneapolis banker, and a rebuilt ship. The engine was an old one and not considered safe for exhibition work.

Mansfield was occupying the front cockpit, known in flying circles as the "coffin," and when the ship crashed nose down to the ground the engine was jammed back against him, inflicting severe injuries from which he died a few hours later.

ROLL OF HONOR

Harry Erickson, returned from war service and who spent some time visiting friends in Montana, is now home. He carries a large group of snapshots showing western mountain and hot springs scenery.

BRAINERD, MINN.

CONTAGIOUS SKIN DISEASE IN SCHOOLS

During the service of the public health nurse, she has referred 17 suspicious cases to the health officer which proved to be impetigo, a contagious skin disease. If people are willing to send their children to public schools they should be interested in health conditions within the schools.

One slogan of the Child Welfare movement is "No Child is Safe Till Every Child is Safe." According to one of our local physicians it is a physical impossibility for a public health nurse to do her work in the city of Brainerd without a car and at no time would it be more needed than during the winter months.

Fight to Uphold Child Labor Law

(By United Press)

Washington, Oct. 20.—The government today entered a fight to uphold the constitutionality of a tax on child labor products when it obtained permission from the supreme court to file briefs in support of their position at Atherton and Charlotte, N. C. It has been appealed to the supreme court from the state court decision knocking out the law.

NO BONUS FOR TRAINING

Were Not in Service Then, is War Department Ruling

St. Paul, Oct. 18.—Civilian candidates of the officers' training camp were neither officers nor enlisted men according to a war department ruling, and consequently service men applying for state cash bonuses cannot include time spent in such camp in the period covered by bonus claims. The ruling was made late yesterday at bonus headquarters in the Capitol. It will affect a large number of Minnesota men.

Men who included the three months in training at these camps may depend on the proper deduction being made by the bonus department, according to Major W. A. Curtis, executive officer, and need not communicate with the bonus board on the subject.

Proposals for Heating Plant in West Brainerd School Building.

Sealed proposals will be received by the Board of Education of the Brainerd School District at the office of the Secretary, Louis F. Hohman, 214 S. 6th St., Brainerd, Minn., until seven o'clock P. M. Monday, October 27th, 1919, for the furnishing and installing of a suitable heating plant in the West Brainerd school building. Furnace heat or Jacketed Stove preferred. Submit your own plans and specifications that are approved by the State Department of Education. Bids must be accompanied by a certified check to the amount of 4% of the bid, payable to Archie Purdy, Treasurer, which check will be returned when contract is executed, or when said Board does not accept the bid. The Board of Education reserves the right to reject any or all bids.

Building has been erected according to Plans and Specifications of Design No. 3, State of Minn. School Plans.

LOUIS F. HOHMAN, Secretary.

Easier Now Than Later

It is easier to break up a cold or check a cough now than it will be later. Persistent coughs that "hang on" all winter pave the way for serious throat and lung diseases. L. W. Day, 65 Campbell Av., E. Detroit, Mich. writes: "Foley Honey and Tar relieves one of bronchitis very quickly." H. P. Dunn.

Cut this Out—It is Worth Money

DON'T MISS THIS. Cut out this slip and send it to Foley & Co., 2835 Sheffield Ave., Chicago, Ill., writing your name and address clearly. You will receive in return a trial package containing Foley's Kidney and Urinary Compound, for coughs, colds and croup, Foley Kidney Pills and Foley Cathartic Tablets. H. P. Dunn.

LABOR NEWS

ACTIVITIES OF
I.W.W. REVEALED

Marine Workers of Many Coun-tries to Be Formed Into
"One Big Union."

MOVEMENT WELL UNDER WAY

Documents Show That South Ameri-can Nations, With Ireland, Spain and Holland, Are Concerned—
General News of Labor.

A plan of the I. W. W. to organize the marine workers of several Euro-pean and South American countries into "one big union" was disclosed in letters seized in the raid on the New York headquarters of the organization a few weeks ago and submitted as evi-dence when the joint legislative com-mittee resumed its inquiry into radical and seditious activities in New York state.

The letters, written by various or-ganization officials, showed that ma-rine workers were being organized into the Marine Transport Workers' Indus-trial union No. 8 of the I. W. W. One of the documents read into the record, dated Chicago, June 10, was written by James Scott, who had been made acting secretary and treasurer of the union.

It stated that efforts were under way to organize the transport workers of Argentina, Chile, Cuba, Mexico, Ire-land, Spain and Holland, and that op-erations would be extended to other countries as funds became available.

MULCT HEROES SEEKING JOBS

Chicago Employment Bureau De-mand of Ex-Soldiers 60 Per Cent of First Month's Pay.

Information that returned soldiers are compelled to pay 60 per cent of their first month's salary to Chicago employment bureaus in order to get the same kind and class of jobs that they can get free at the employment bureau for returned soldiers, sailors and marines, has come to the bureau from several sources, according to of-ficers of Uncle Sam's job bureau.

Soldiers report that they are com-pelled to sign a number of notes for \$5 each, enough to make 60 per cent of the first month's salary and leave them with their applications for jobs after paying \$2 for one year's regis-tration.

Directors at the soldiers' bureau assert that such methods are both un-just to the soldier and unpatriotic, be-cause the men who offered all they have to the service of their country have the right to get a job in the in-dustrial world without paying any such tribute as 60 per cent of their first month's salary.

All employers are requested, say these directors, to register their open positions with the soldiers' job bu-reau exclusively.

"It frequently happens," one depart-ment manager said, "that a soldier after waiting some time for a job from the bureau registers also at one of the local employment offices. He finds when a job is offered him from the pay-as-you-enter concern that he has the same identical job waiting for him when he makes his next visit at the employment bureau for soldiers."

"Had he taken the job from the bu-reau he would not be required to pay any cost, but as it happens he must assign the greater part of his first month's salary to the civilian bureau from which he took the job."

Women for Labor Equality.

At the international labor confer-ence to be held at Washington Octo-ber 29, under a provision of the peace treaty, women probably will be in the delegations from several nations. In Great Britain woman workers already have asked that they be represented and it is forecast that a determined effort will be made by any woman delegates who may be admitted to hold for women everywhere the ad-vantages as to working conditions and compensation gained since 1914.

Equal pay for equal work and full opportunity to enter any line of work which the stress of war showed women capable of doing, it is said, will be advocated as essential.
